DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10, 14-16, and 19-21, drawn to interacting/navigating controls, classified in class 345, subclass 764.
 - II. Claims 11-13, drawn to install device drivers, and initialization files, classified in class 707, subclass 1 or 3.
 - III. Claims 17-18, drawn to an icon, text search, and support communications, classified in class 345, subclass 835.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as interacting/navigating controls the GUI; invention II has separate utility such as installing device drivers and initialization file; and invention III has separate utility such as using icons, text search, and support communications. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for each Group is different, restriction for examination purposes as indicated is proper.

Art Unit: 2174

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. A telephone call was made to Attorney Joseph P. Kincart on Feb. 25, 2003 to request an oral election to the above restriction requirement, but Applicant has not responded back in three days.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Truc T Chuong whose telephone number is 703-305-5753. The examiner can normally be reached on M-F 8:30 AM - 5:00 PM.
